

I am very concerned about the FCC proposal to expand broadcast service to LPFM stations. In doing this, several FM stations may be forced off the air. Stations like K-LOVE, which provide Quality family programing in my area. It is very refreshing to know that I can tune in to a radio station that focuses on good, wholesome values and has a good positive and encouraging message. It is a shame to hear how other radio stations are constantly trying to push the envelope and see how much they can get away with. K-LOVE is a station that I can tune in to and not be afraid of what my children will hear. Please give this a lot of thought. We need stations like K-LOVE to stay on the air. Thank you for your time and attention in this matter.-Mrs. Cynthia Estrada
